

AkyPak® Advanced

1600x1200

Large capacity Foldable Container

This sturdy and large capacity, yet lightweight, container is perfect for maximizing security for the safety of all automotive parts in transportation and handling. Thanks to the **specially designed interior** to the specific contents, the AkyPak® Advanced 1600 x 1200 will allow you safe storage of fragile parts with high value and **often very complex geometry**.

Our individually designed foldable and returnable container precisely matches the shape of the car parts it carries, ensuring perfect storage and transportation.

Good Weight to Strength Ratio

Shock Resistant

High Lifespan
(up to 10 years)

Stackable & Foldable

Water Protective

100% Recyclable

Technical Specifications

External Dimensions (mm)	1600x1200x1000
Internal Dimensions (mm)	1530x1130x790
Weight of the Sleeve (kg)	15,3kg
Weight of Pallet (kg)	17,5kg
Weight of the Lid (kg)	11,6kg
Box Volume (L)	1530 Litres
Material	HDPE / PP
Sleeve Quality	3000g/m ²

Load Specifications

Max Load per Box (kg)	350kg*
Container Stack Empty Return	11
Static (kg)	700kg*
Dynamic	350kg*

*Depending on the density of goods being packed in the container. Contact us for more information.

Space Optimization

Folded height (mm)	236 (+ 216 / container stacked)
--------------------	---------------------------------

Return ratio up to 4.3 depending on the height of the sleeve and the type of truck for transportation.

Sustainability at the core

Designed and manufactured according to Circular Economy principles our extensive range of AkyPak Containers are a key element to reduce dependency on single-use packaging materials and to curb CO₂ emissions from supply chains. They are fully recyclable at the end of their useful life, producing zero waste.
