2Side System® 2800

Technical Specifications

Manufactured from rotational-moulded high-density linear polyethylene, mass-coloured and stabilised against the combined action of UV rays and water.

It is manufactured using environmentally-friendly, recyclable materials.

No heavy metals are used in the pigments.

The body is ribbed to make it robust and resistant.
Exclusive design by **CONTENUR**.

Customised containers for each type of waste collection: glass, paper, plastics, organic, etc.

Product certified in accordance with the European standard EN 13071.
